In re Application of  
Sten R. Gerfast      CUSTOMER NUMBER 80990

Serial No. 10/733,944

Group art unit 2834

Filed 12/12/03

Examiner Tran N. Nguyen

For GENERATOR WITH OUTPUT OPTIONS AND LOW LOSS WINDINGS.

Commissioner of Patents  
P.O. BOX 1450  
Alexandria VA 22313-1450

FAX 571 273 8300

April 30 2011

This is in reply to the Advisory action mailed April 15 2011.

The applicant acknowledges the Examiners statement how the earlier art rejection is now acknowledged.

The Applicant is submitting a new amended Claim page (the first Page) showing Claim 1 and Claim 9

amended by striking out the word "like " and replacing it with "equal"

The wording "like number" is correct patent language (U.S 6,940,328, U.S. 6,850,019 and others)

and it is correct English, but if the Examiner prefer the word "equal number" for clarification

the Applicant has changed both the Claim 1 and Claim 9 from "like" to "equal" and in the Specification

sheets 5 and 6 from "like to "equal" (Enclosed )

The original specification (Page 5 and 6) clearly describes: [clearly also in Claim 1 and Claim 9]

"new type stator winding with the same number of stator poles as the rotor poles"

"with alternately wound (north/south) coils, connected in series, forming a single coil with two free ends"

Lines 1-3 and lines 13-15 on page 5 of the original Specifications.
